EXAMPLE COAST

Visitor guide | Fictitious sample for a Nutrient demo

A new trail along the coast

View from the northern point at sunrise.

The coastal trail opened in spring after two years of work by local volunteers. It follows the shoreline for twenty-three kilometres, from the old harbour to the lighthouse at the northern point, and is marked every five hundred metres with a small wooden post.

Most walkers complete the route in two days, with a night in the village halfway along. The path is level for most of its length, but the section below the cliffs can be closed at high tide. Check the tide table at the information point before you set off.

Along the way you will pass three sandy beaches, a nature reserve where seabirds nest from April to July, and the ruins of a nineteenth-century fishing station. Benches and drinking water are available at each beach.

Dogs are welcome on a lead. Please take your litter home and keep to the marked path, as the dunes are fragile and protected. Cycling is not allowed on the cliff section.

Practical information

Length: 23 km, about 7 hours of walking

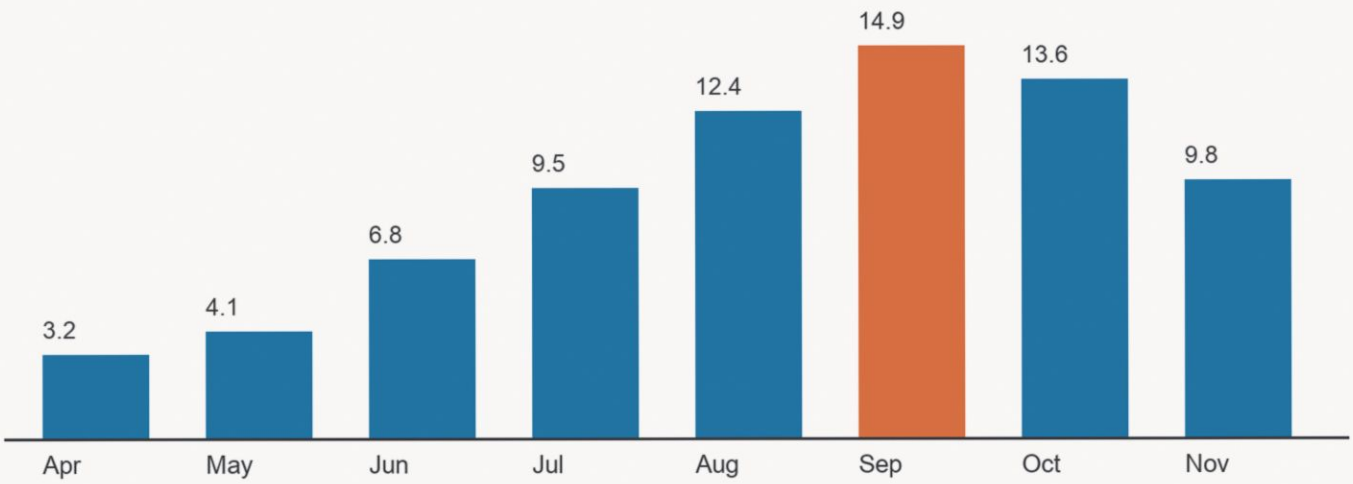

Start: Old harbour car park, Exampleton

Information point: open daily 9:00 to 17:00

Trail sections

Section	Distance	Time	Difficulty
Old harbour to Sandy Bay	6.5 km	2 h	Easy
Sandy Bay to the village	5.0 km	1 h 30	Easy
Village to the cliffs	6.0 km	2 h	Moderate
Cliffs to the lighthouse	5.5 km	1 h 45	Moderate
